If, after you have signed up for a session, you should be unable to attend, please notify the Counseling Office to cancel. Your absence could prevent a fellow student from attending. TO OUR APPLE CUSTOMERS

Our suppliers assure us that we have not purchased any apples in the past three years that have been treated with the pesticide ALAR. Further, the International Apple Institute states, "A human would need to consume 28,000 pounds of apples a day for a life-time to reach the levels of exposure to ALAR as animals in the study groups". We will therefore continue to offer apples, but are asking for verification that no harmful chemicals have been used on all fruits before we offer them to our customers.
