

ELECTIONS DELAYED UNTIL MARCH

COLUMBIA'S STUDENT BODY ELECTIONS, WHICH WERE SCHEDULED TO TAKE PLACE LAST WEEK, HAVE BEEN POSTPONED UNTIL MARCH. This decision was made by the election committee at a meeting held on Thursday, February 18th.

According to Columbia's new constitution there is supposed to be a spring election held every May. The election committee decided that instead of holding an election now, and then another one in May, they would just hold the spring election early this year.

The constitution states that the offices to be filled in the spring election are the presidential, secretarial, and three representatives to the senate, all of which will hold office until the spring of 1972.

DANCE AT FRICOT

ATTENTION ALL OF YOU BEAUTIFUL WOMEN!!!

Seeing how the community is lacking in recreation and entertainment for young adults, the wards of Fricot have taken it upon themselves to throw a righteous gig.

This dance will take place on February 27, from 8:00 p.m. to 12:30 a.m., in the gym at Fricot. This dance will provide for you chicks: a live band, refreshments, an outa-sight light show, and transportation if necessary. All at no cost to you. Chicks needing a ride meet at the Save-Mart in Sonora at 7:00 p.m. If rides from elsewhere are needed, contact the Fricot office, next to Mr. Dyer's office.

This will be the last chance for you to visit Fricot, since it is closing in June.

DUNLAVY FIELD TO BE REMODELED

The football field of the Sonora Union High School is going to be rebuilt and will retain the name of "Dunlavy." The remodeling of the entire football field will consist of: new turf with an 18 inch crown. There will also be new track and field facilities, for example: high jump, pole vault, shot put, etc.

The cost of the remodeling amounts to \$41,460 dollars, according to the contract. The money for remodeling is to come from the local taxpayers with an increase of 35 cents per 100 dollars (passed 3 years ago) in the property tax for a period of 7 years.

The football field comes first at \$41,460, then new buildings.

This building program does not effect any of the scholastic situations concerning money.

The entire building program for Sonora Union High School consists of 1½

million dollars for a period of 7 years; this money will be for the remodeling and building of new buildings, for example: science buildings, wood shop, a new library, a

new administration building, and for everything else that is essential for a good program at the High School. The money being spent for the remodeling and future buildings will not effect the classes.

INTRAMURAL TOURNAMENTS

The P.E. Department has announced that a program designed to enable anyone who wishes to participate in extra-circular sports activities will be able to. Coach Bob Gibson and Pete Sullivan have established the week of Feb. 22 as the week for Intramural Tournaments. The activities to be offered will include three-man Volleyball Tournaments, and two-man Basketball Tournaments on half courts.

In the past, the P.E. Department has sponsored Golf Tournaments for the students of C.J.C. There will be other tournaments in the near future, including golf, tennis, horseshoes, and others. The P.E. Department also offers a wide variety of individual activities, including trampoline, shuffleboard, free throw, Ping-Pong, volleyball, tennis, weight lifting, horseshoes, and a variety of

others.

Sign up sheets for the Basketball and Volleyball Tournaments are in the P.E. Department office in the new building. Sign up by the end of this week, Friday, Feb. 26. The tournaments will start the week of Feb. 22. Teams competing can sign up for playing times at their convenience.

CJC Reviews Classics

W. C. Fields and Charlie Chaplin Hit The Big Time

Columbia College presented Charlie Chaplin and W.C. Fields film classics last Wednesday, Feb. 17th and Thursday, the 18th, as its first 1971 film offerings.

Four 20-minute Chaplin comedies, including "The Immigrant," "The Tramp," "The Rink," and "The Cure," were presented Wednesday, and the Fields Classic "My Little Chickadee," was shown on Thursday.

These classics depict the two great comic artists of the early days of filmmaking.

Approximately 200 people attended the free showing each night. The program was open to the public as part of the college community services program. Other films are also scheduled for showing at the college, and they will be posted at a later date.

OVER 30

by PHIL BARBERA

Do you remember in your childhood when you could hardly wait to do something? Well that is how I feel about ski class, or skiing.

If you have never skied before and plan on attending CJC the winter quarter in '72, sign up: it's really great.

The one thing that is very important is the ski lessons, which are mandatory and essential. The instructors are very good. For example, if you are a beginner you will start in the "A" class. As you progress the instructors will advance you, according to your ability, up to "D" class, or the advanced class. I personally advanced to the "D-" class with Lolly, Stein, Roger, and, I hope, Mimi (hang in there Mimi).

You are probably wondering right now if there is a "D+", there must be a "D+" class! You are right. However, the reason people like Don Rossburg, Judy Johnston and a select few achieved this, was (I shouldn't tell them) the instructor's back was turned when classifying, because it is a large class (just kidding).

At any rate, once the lesson is over there is time to practice what you

PHIL BARBERA

have learned. After a few trial runs I rode up the chair (#2) with Josh Bigelow, and we were comparing notes about how great each was doing. Naturally, when we both skied off the chair I fell; however, since I fall more often I guess I learn more. Do I?

There are other pleasant aspects to skiing. That is, everyone does have a common goal, and share the same things: tenure, prejudice and political hang-ups are left behind.

However, for the female there is a great deal to be gained. For example, if you happened to fall in front of a ski instructor (on purpose) who is debonair, handsome and gallant; he assists you and gives personal lessons, there could be romance? Good work Lolly.

Letter To The Editor

IT'S YOUR SCHOOL

EDITOR'S NOTE: It has previously been the policy of this newspaper to print Letters to the Editor on the inside of each issue. However, due to the content of this letter, we felt that it should be placed in a more prominent position.

On the inside of the front cover of the C.J.C. catalog is the philosophy that founded this College. This statement reads as follows: "This community College is dedicated to the worth and dignity of each student. It will be subservient to the goals of the student, his needs, his desires, his aspirations." I am sure that to a small number of students this philosophy is considered to be nothing more than so much B.S. To the large majority of the student body I am sure it means what it says. It is to these students that I direct this letter.

When a college, such as C.J.C., dedicated itself to the student body it serves, it automatically gives that student body a great deal of freedom. It allows the students to set up a student government that is not controlled by the faculty and/or the administration; it allows students to sit on most of the policy making committees of the school; it allows the student to help determine the curriculum that is to be developed on this campus; it allows the student to talk directly with any member of the faculty or administration on matters that are of concern to the student body or any individual student. With the awarding of this freedom, however, it also gives the student body an equally large amount of responsibility. It is this responsibility that I would like to discuss.

For a person to assume that he can have freedom without responsibility is, in my opinion, the biggest cop-out of the generation, and to my amazement, I am getting the impression that the students at C.J.C. are in effect copping-out. If you haven't tuned me out by this time as being part of the so-called establishment, I would like to give some reason why I feel this way and why I am concerned about the problem.

First I would like to say that I feel that C.J.C. has potentially the greatest student body of any campus I have ever been on. I do not feel that I am down on students or that it is my mission in life to preach to the younger generation, but as a professional educator who is interested in students, I feel it is my responsibility to point out to the student body things that I feel could hurt C.J.C.

At the beginning of this letter I made mention of the C.J.C. Philosophy statement. What is the philosophy of this student body? Is this student body dedicated to the worth and dignity of this College, or is it dedicated only to self gratification? Do you as a student feel that you have any obligation and responsibility to this administration, faculty and college? When I see a student government literally fall apart in not quite

two quarters, I wonder. When students do not bother to sit on the committees they are assigned to I become worried, and when students assume an attitude of complete indifference to their academic endeavors, I write letters.

C.J.C. can function as a college that is dedicated to its students only as long as the students wish it to be this way. When the students no longer take the responsibilities that are delegated to them, the administration must take over these responsibilities and we all know where that leads. Why can't students make it to class on time? Is it because the clocks are slightly off? Maybe we should have a bell system (ugh). Is it not common courtesy to come to class on time so that you do not disturb a large number of people by your tardiness? I hope so. Why are students now upset that some field trips have been cancelled because certain students felt they had the god-given right to drink, smoke pot, or pop pills on a field trip. Why weren't the students upset about it at the time it happened??? Or, does this student body think it can have a happening on campus over the weekend and allow people to toke-up on campus because each individual has the right to do whatever he or she decides to do? I hope not.

I know from experience that it is much easier to sit back on your duff and gripe about everything and anything than it is to do something, but let me also assure you that this is also a cop-out. I have heard rumors that the student government was nothing more than an arm of "our friend Dusty" (to quote a previous letter) because the student council president spent much time talking to Dusty. Maybe that was because he would listen when the students were too busy enjoying their self-indulgence.

Look around this campus and see the litter that is thrown around by a student body that is ecology-minded -- in fact, by a student body that is telling the community to clean up.

I feel that students on this campus have something that no other college in the nation has: a wonderful location, a relaxed atmosphere, a concerned and dedicated faculty and administration, and above all, a place to become educated--not trained.

Think about it--talk about it--and then do something about it. It's your school and I want you to be able to keep it. Get it together before it's gone.

Sincerely
Bob McDonald
